

Leadership vision for the protection of the environment

Waste treatment services

Our collaborative Technical Practice Network for hazardous & non-hazardous waste management enables our local community of environmental professionals to share expertise, leading-edge technology and best practices to solve client problems.

Waste recycling programs

As a part of zero landfill targets in UAE, We fabricate a multiple recycling network to provide maximum recycle solutions for the clients. OES provides a recycling with the affiliation of our supportive partners to achieve our common goals in order to protect our environment, to keep clean and safe for coming generations.

Oasis Environmental Solutions is one of the leading Environmental Management Companies in Abu Dhabi, which has been operating for more than a decade in the Industrial Waste sector. OES provides environmental consulting and contracting services to the public and private sectors as well as property owners, governmental bodies, schools, municipalities, hospitals, and industrial accounts.

We are now expanding our business management, commercial, engineering and services in Madrid, Spain.
